

# GROUT INJECTION SPECIALISTS

	<b>JOB DESCRIPTION</b> Cheltenham	<b>JOB No:</b> 5671 <b>DATE:</b> 7 May 2007
<b>OBJECTIVE:</b>	Leak sealing to underground domestic dwelling. Leaking construction joints showing heavy water ingress.	
<b>TECHNICAL DATA:</b>	<b>DRILLING:</b>	<b>POLYMERISATION TIME:</b> 40 seconds
	DIAMETER: 16mm CENTRES: 3-400mm ANGLES: 30-40 deg DEPTH: 250mm	<b>INJECTION PRESSURE:</b> 90-120 bar
		<b>MATERIALS:</b> TAM PUR 150 TAM PLUG
<b>COMMENTS:</b> Water ingress was evident along the entire construction joint within the basement. Waterproof concrete additive had been used along with a new design incorporating polystyrene shuttering. This project was featured on <b>Channel Four's</b> programme entitled " <b>Grand Designs</b> "  All areas were successfully treated with Tam Pur 150 in conjunction with a single piston electric pump.		
<b>COMPLETED PROJECT:</b>
